The drone is not to be used in areas where it may be restricted by local laws or regulations. Please check the local laws and regulations before flying.</p>	<p>Battery Installation & Charging</p> <p>Connector:</p>  <p>To install battery: Open the cover of battery case, insert 1 x 1.5V AA battery. Warning: Do not use other types of batteries. Do not use old and wet batteries.</p> <p>Charging: Connect one side of the USB connector with the battery and the other side into any USB port of a computer or a power adapter (not included).</p> <p>Drone: Igniting the battery switch. This will turn on the battery. You will see the LED light on the motor controller.</p>	<p>Remote Control</p>  <p>Standard Operation Steps:</p> <ol style="list-style-type: none"> 1. Turn on the controller. 2. Turn on the drone. 3. Push the drone in the air. 4. Push the throttle up and down to control the drone's altitude. 5. To stop the drone, push the throttle down. 6. Push the left stick to the left to turn left. 7. Push the right stick to the right to turn right. 8. Push the left stick to the right to turn right. 9. Push the right stick to the left to turn left. 	<p>Calibration Reset (Very Important!)</p> <p>Before the flight, calibration is necessary for the drone to fly smoothly. To reset the calibration, please refer to the manual for the calibration procedure.</p> <p>Headless Mode: Headless mode is a mode where the drone does not have a fixed orientation. This mode is useful for beginners who are not familiar with the drone's controls.</p> <p>One Key Reverse: One key reverse is a feature that allows you to reverse the drone's direction with a single button press.</p> <p>Take Photos & Video: The drone is equipped with a camera that can take photos and videos. To take photos and videos, please refer to the manual for the camera operation instructions.</p>	<p>Flips and rolls</p> <p>Flips and rolls are advanced flight maneuvers that require precise control of the drone. Please refer to the manual for the detailed instructions on how to perform these maneuvers.</p> <p>Main Accessories:</p> <ul style="list-style-type: none"> 1. Propellers 2. Motor Guards 3. Landing Gear 4. USB Charge Cable 	<p>Please read this instruction manual carefully before using the product.</p> <p>Denver Electronics</p> <p>www.denver-electronics.com</p> <p>1.
